

Semi Automatic Firearms Safety Training:

Prerequisite Information

Audio: Before beginning this course, it is essential that you familiarize yourself with your weapons specific components. Understanding how your weapon operates is essential prerequisite knowledge to successfully complete this course. Please read your firearm owner's manual prior to beginning.

Course Objectives

Hover over each number to view course objectives:

1

Upon completion of Unit 1 of the firearms safety and weapons condition codes training, learners will apply condition codes with 100% accuracy, as measured by scenario assessments

2

Use these objectives to guide your learning experience!

The screen features a dark olive green sidebar on the left with a hamburger menu icon at the top and PDF, audio, and refresh icons at the bottom. The main content area has a light gray background with a faint image of a handgun. Two numbered circles, 1 and 2, are positioned vertically. A yellow tooltip box is shown next to circle 1, containing text about Unit 1 objectives. Navigation arrows (left and right) are located between the numbered circles. A small text box at the bottom of the main area says 'Use these objectives to guide your learning experience!'.

Audio: Before Getting Started, take a moment to view the course objectives. Use these goals to guide your learning experience.

Pre Assessment

Pre Assessment

Estimated Time: 20 minutes

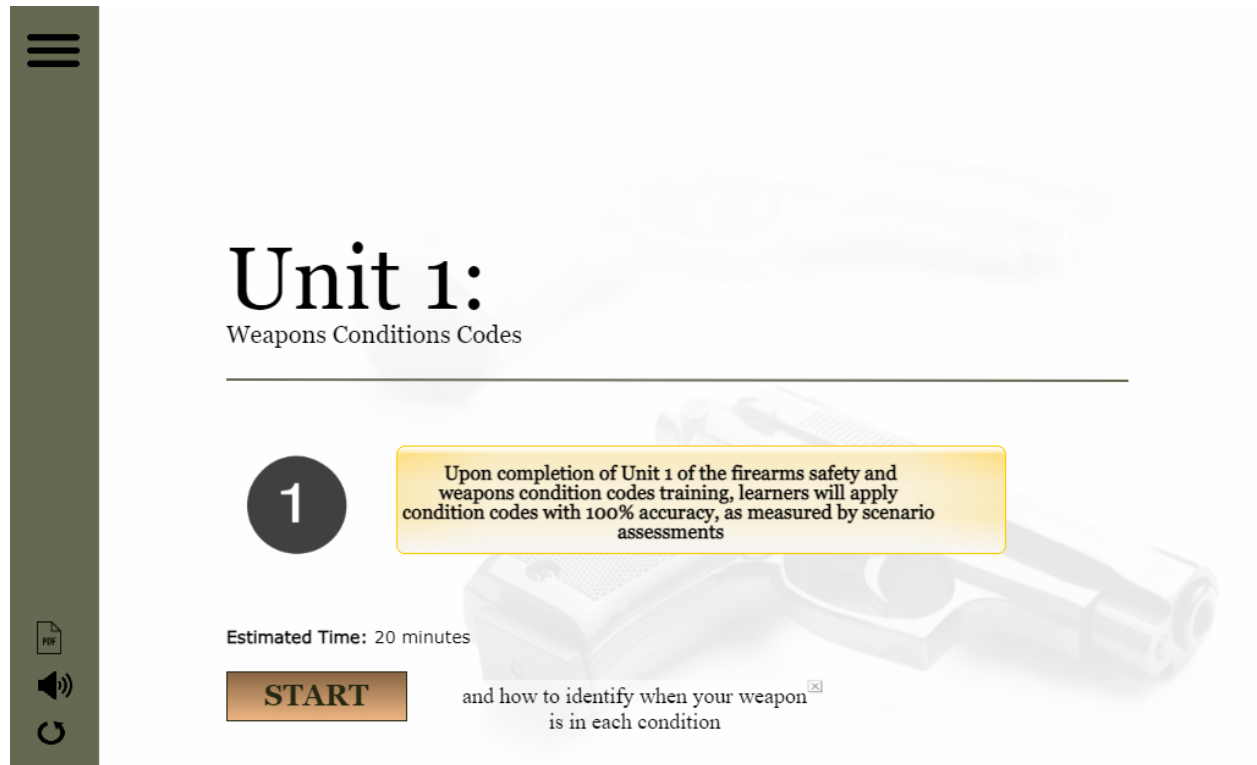

START

It will take approximately 20 minutes to complete.

The screen features a dark olive green sidebar on the left with a hamburger menu icon at the top and PDF, audio, and refresh icons at the bottom. The main content area has a light gray background with a faint image of a handgun. The title 'Pre Assessment' is prominently displayed in a large serif font. Below it, the text 'Estimated Time: 20 minutes' is shown. A large orange 'START' button is centered below a horizontal line. At the bottom, a text box states 'It will take approximately 20 minutes to complete.'.

Audio: Please begin by taking this pretest to assess your current level of understanding. It will take approximately 20 minutes to complete. Click the “start” button to begin.

Unit 1:

The image shows a digital interface for Unit 1. On the left is a dark olive-green vertical sidebar with a white menu icon (three horizontal lines) at the top and three smaller icons (PDF, speaker, and a refresh/circular arrow) further down. The main content area has a light gray background with a faint image of a handgun. At the top of this area, the text 'Unit 1:' is in a large, bold, black serif font, with 'Weapons Conditions Codes' in a smaller, regular black sans-serif font below it. A horizontal line separates this header from the content below. In the center, there is a large dark gray circle containing the white number '1'. To the right of this circle is a yellow rectangular box with a thin black border containing the text: 'Upon completion of Unit 1 of the firearms safety and weapons condition codes training, learners will apply condition codes with 100% accuracy, as measured by scenario assessments'. Below the circle, the text 'Estimated Time: 20 minutes' is displayed. At the bottom left of the main area is a brown rectangular button with the word 'START' in white, bold, sans-serif capital letters. To the right of the button, the text 'and how to identify when your weapon is in each condition' is shown, with a small 'x' icon at the end of the line.

Audio: Welcome to Unit 1! In this unit you will learn the 4 weapons conditions and how to identify when your weapon is in each condition. You will also learn how to utilize weapons commands that incorporate the four conditions codes. If you need to return to a previous portion of the lesson, use the menu icon at the top left hand side of the page to navigate the course! This unit should take approximately ____ minutes to complete. Click start to begin!

Why Does it Matter?

Why Does it Matter?

Quick Facts about Unintentional Shootings

Each year, nearly 500 people die from unintentional firearm injuries — more than one person every single day.

Unintentional firearm injuries account for 37% of nonfatal firearm injuries but less than 2% of all gun deaths.

Americans are four times more likely to die from an unintentional gun injury than people living in other high-income countries.

Unsafely stored firearms increase the risk of unintentional firearm deaths.

Every firearm owner should know and
be able to explain what condition their
firearm is

Audio: Before we begin it is important to know why understanding the condition codes matters. Every firearm owner should know and be able to explain what condition their firearm is in at all times for safety purposes and general awareness. If you handle a gun or hand a gun to anyone you should be able to know/articulate the condition in order to avoid negligent discharge (ND). According to the Educational Fund to Stop Gun Violence, 500 people die from unintentional firearm injuries each year. That is more than 1 per day. Unintentional firearm injuries account for 37% of non fatal firearm injuries. Understanding the weapons conditions codes is essential to avoiding unintentional incidents.

Lesson 1 Introduction:

Lesson 1:

Condition 1: Locked, Cocked, and Ready to Rock

Estimated Time: 15 minutes

START

Audio: In the first lesson you will learn what it means to put your weapon in condition 1. This condition is typically referred to as the locked, cocked, and ready to rock condition because it is the condition in which your firearm is ready to engage targets. In Condition 1 the Magazine is inserted, a round is in the chamber, the slide is forward, and the weapon is on safe.

Lesson 1 Condition 1 Scroll Over Activity:

Audio: Take a moment to explore this condition 1 firearm by scrolling over each component to reveal their state.

Lesson 1 Video:

Condition 1 Video Demonstration:

Audio: Click play to gain a deeper understanding of what constitutes a condition 1 firearm.

Lesson 1 Scenario Practice:

Time to Practice! What is the first step?

Leave Magazine Out

Insert Magazine

Pull the Trigger

Safety Off

Audio: Now is your chance to practice! Begin by selecting the first step to putting your firearm in condition 1!

Scenario Part 2:

Awesome Job! What's Next?

Pull the Trigger

Remove Magazine

Hit Slide Release

Safety Off

Audio: Awesome Job! What's Next?

Scenario End:

Your Firearm is in Condition 1!

Congratulations! You have successfully put your firearm in condition1!

Continue

Audio: Congratulations! You have successfully put your firearm in condition 1! Hitting the slide release automatically racks a round in the chamber, so you now have a magazine inserted, slide forward, round in the chamber, and weapon on safe. You are cocked, locked, and ready to rock! Great job!

Lesson 1 End:

Congratulations!

Continue

Audio: Congratulations! You have completed lesson 1 of the conditions codes unit. Click “Continue” to proceed to the next Unit!
